### **Role Play**

- Student-centric approach to learning
- Role-play is a technique that allows students to explore realistic situations by interacting with other people in a managed way in order to develop experience and trial different strategies in a supported environment.
- Role play can allow everyone to participate.

### **FORECASTER**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### TV REPRESENTATIVE

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### REPRESENTATIVE OF MAYOR OFFICE

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### **DISASTER MANAGER**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### REPRESENTATIVE OF UTILITY COMPANIES

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

## REPRESENTATIVE OF AIRPORT AUTHORITIES

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

## REPRESENTATIVE OF EMERGENCY MEDICAL SERVICES

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### REPRESENTATIVE OF ROAD AUTHORITY

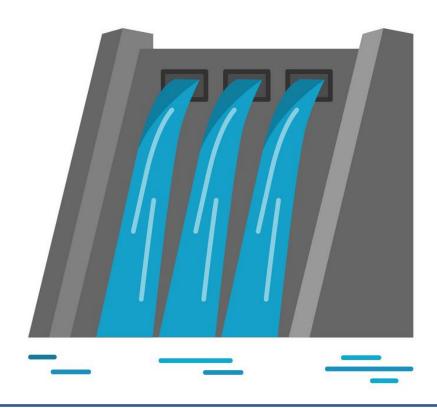

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### **URBAN CITIZEN**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

# REPRESENTATIVE OF HYDROPOWER PLANT

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### REPRESENTATIVE OF RED CROSS AND RED CRESCENT

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### REPRESENTATIVE OF RED CROSS

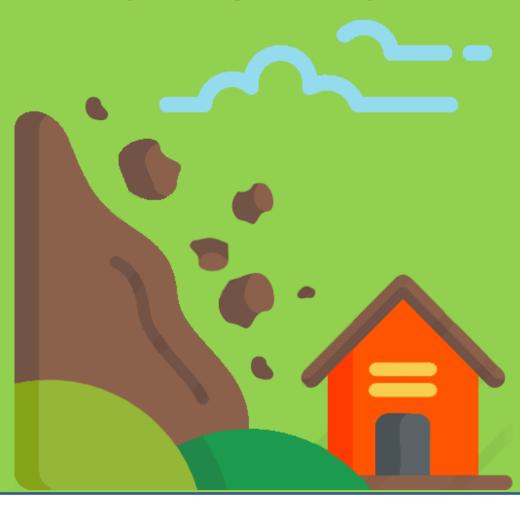

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### **BUS DRIVER**

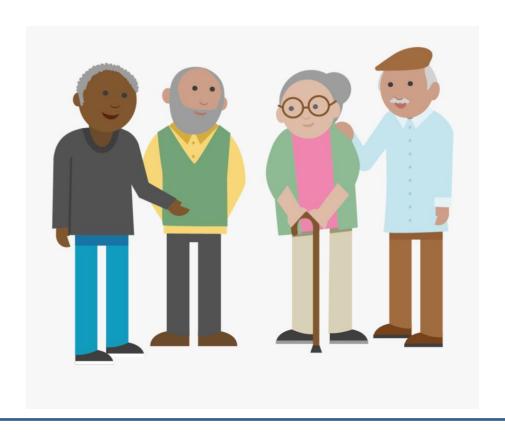

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### OWNER OF A HOUSE BELOW THE HILL PRONE TO LANDSLIDE

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### **ELDERLY PERSON**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

## PERSON WITH VISUAL DISABILITY

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

## PERSON WITH HEARING DISABILITY

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### **TOURIST GUIDE**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

#### **HOTEL MANAGER**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

### **TOURIST**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

## **FARMER**

- 1) How should flash flood warnings be structured from your perspective?
  - 2) What information should be included in the flash flood warning?
- 3) What is the minimum lead time that you think is necessary to respond effectively to flash flood hazards?
- 4) Which dissemination channels do you prefer to use for dissemination of flash flood warnings?
- 5) How FFGS forecaster-support can contribute to saving lives and property?
  - 6) From your perspective what type of public education would be needed for the public to effectively respond to warnings?

# 10-YEAR CHILDREN

#### Flash Flood!

Be alert, water may rise without warning.

Fast moving water may result in serious injury or death.
