

3. Updates on capacity development activities by WMO Bodies

3.3 Updates from SERCOM

Presented by

Dr Ardhasena Sopaheluwakan

12th Meeting of Capacity Development Panel

(EC-CDP-12)

16 and 17 February 2026

Key Highlights in Capacity Development Activities

SERCOM MG 3 (1-5 December 2025) Main Conclusions

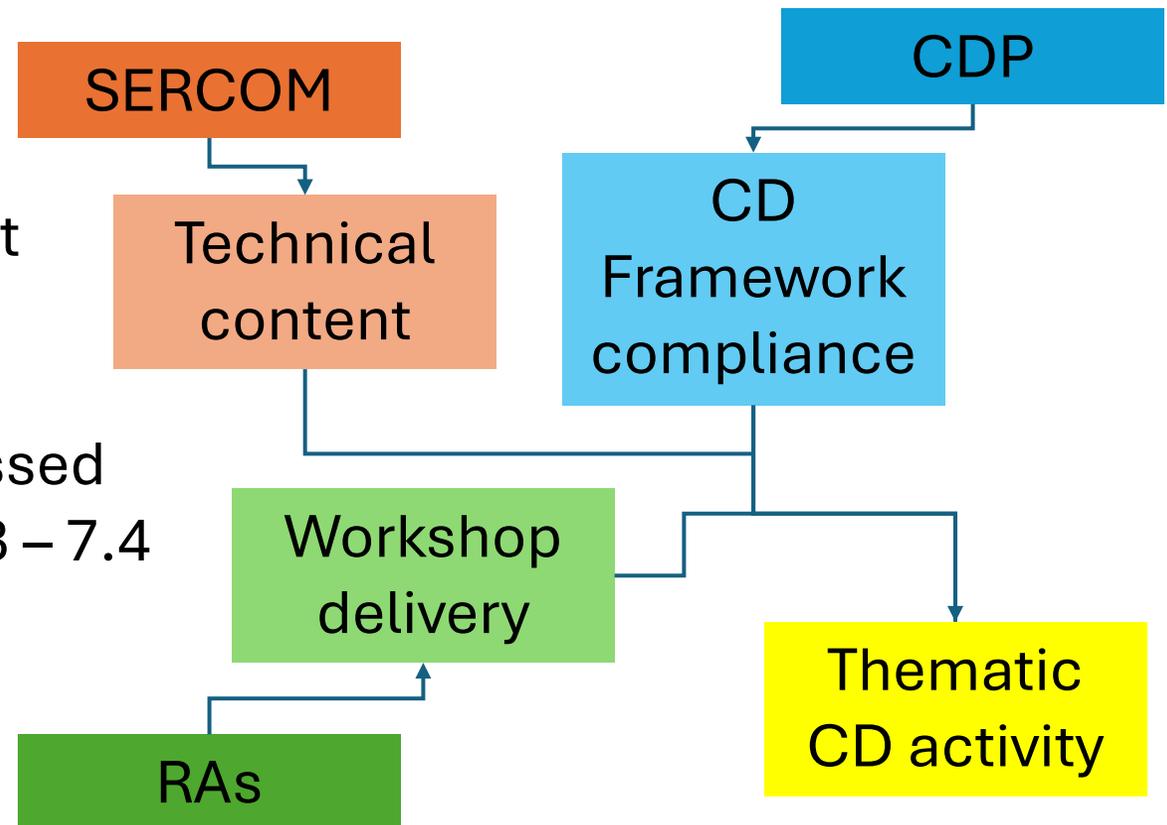

- Clarification on the roles and responsibilities of technical commissions and regional associations in the Capacity Development Programme, as well as in the Regional Programme.
- P/SERCOM to continue discussions with P/RAs and C/CDP regarding how better to clarify roles and responsibilities for the formulation and delivery of capacity development activities, based on the draft CD Programme description presented at TCC-2(2025).
- The CD Programme description, to be further considered by CDP-12 in February 2026 and final submission to EC-80 for approval, will be the basis for future discussions on the core mandate of SERCOM and the prioritization of the SERCOM work programme in relation to capacity development activities, in which it is expected that Regional Associations will play a major contribution.

Items requiring Panel discussion, guidance or action

- Noting the different thematic subsidiary bodies focusing on similar cross-cutting topics (e.g. capacity development), better coordination could be sought with CDP and Regional Associations on cross-cutting topics such as:

- Capacity Development
- QMS
- Business Continuity Management
- Socio-Economic Benefits

- Other SERCOM related topics discussed under agenda items 6.2 – 7.1 – 7.2 – 7.3 – 7.4
