Access Earth Engine by registering your Cloud project as [commercial](#) or [noncommercial](#)

Earth Engine is a powerful tool for geospatial analysis used for climate, sustainability, and environmental work. Unpaid access is offered to eligible noncommercial organizations, while businesses and governments engaging in operational activities access Earth Engine via paid commercial use.

Register for commercial use

View [pricing plans](#)

Continue

See if you are eligible for noncommercial use

View [use case examples](#). Noncommercial users may need to re-verify their noncommercial eligibility on a periodic basis.
