# Approaches to Collaboration with Technical Commissions

- Capacity development is cross-cutting activity of WMO, including the work of all constituent bodies
- The Panel will be responsible to the EC through the TCC, as well as the PAC
- Implementing partners will include all WMO centres as well as external partners (funding agencies, regional economic commissions, development banks, other stakeholders)

# Key Focus Areas

- a) Institutional development and legislative matters, strategic planning, policy issues and appropriate implementation measures
- b) Infrastructural development and data availability
- c) Experts qualifications, competencies
- d) Voluntary cooperation, including multilaterals

# Task Teams

- a) Education and Training
- b) Evaluation and assessment of WMO designated Centres, including support and review of WMO Regional Training Centres
- c) Maintenance and development of infrastructure
- d) Policy, legislative matters and management matters
- e) Resource mobilization

# Thank you Merci
