

OVERVIEW OF DISTANCE LEARNING AT LITHUANIAN HMS

IZOLDA MARCINONIENĖ

Chief weather forecaster

WMO webinar: Responding to Challenges Beyond the New Normal

Before the March 2020...

Blended courses (distance and face-to-face learning):

EuMeTrain, Eumetcal, EUMETSAT, ECMWF, Baltic+ (Cooperation and initiation of 4 countries)

Distance learning phase at the Baltic+ course (experience since 2015):

We use EUMETSAT Training zone Moodle platform: Forums; Material to study; Exercises and quizzes; Shared and saved Collaborative case studies files; Assessment and Certificates online

Start from: Needs and motivation

Competent team

Financial, Teaching and Technical skills

Training Development Plan

During the covid-19 situation...

Only distance learning since the middle of March, 2020:

ESSL: Testbed; course on Forecasting of severe convection

ECMWF: training about ECMWF products

Eumetcal: 3day seminar “With a little help from friends”

EUMETSAT: short course (monthly webinars)

Tools used: Webex, Zoom, Blue jeans

Future plans:

Baltic+ course 2020 postponed on May, 2021: in Krakow or... only online?

NOMEK 2021...?

THANK YOU!

WMO webinar: Responding to Challenges Beyond the New Normal
