# Conclusion

13

- Existing resource mobilization, partnership and development (RMPDA) program and activities works well and had met the need of the recipients
- To improve the effectivity of the RMPDA program, **DONOR** could provide RMPDA related trainings, and assistance
- To get wider opportunities, **RECIPIENT** is suggested to make appropriate approach with policy maker, to build the clear communication on the program and activities as well as to ensure their linked and matched with the priorities of Donor/ WMO
