The revised BIPs and related changes in Technical Regulation 49 Presented to Technical Commissions

Presenting to Commissions

The updated WMO-No.1083, which has been recommended by CDP, and resulting updates in WMO-No. 49 are presented to SERCOM-2 and INFCOM-2

The proposed updates in WMO-No. 1083 and Technical Regulation WMO-No. 49 were discussed in plenary at SERCOM-2 and INFCOM-2.

Interventions from Members resulted in the proposal of one amendment in the text related to BIP-MT. This was discussed with the BIP Review Team and accepted.

Recommendation Approved by SERCOM-2 (21 October 2022)

Decision Approved by INFCOM-2 (21 October 2022)

✓ [INFCOM-2 Doc. 6.8\(6\)](#)

Education and Training in a Period of Rapid Change: Highlights of the Fourteenth WMO Symposium on Education and Training

[WMO-No. 1291](#)

French and Spanish versions will be available

The publication highlights challenges for the delivery of education and training activities, including those presented in more detail by keynote speakers, but also explores increased collaboration and cooperation as a way of addressing these challenges.

It contains recommendations from SYMET-14 directed to policy makers and governments, to WMO and other international organizations, and to the education and training community.

Thank you Merci
