

EOTEC DevNet: Working toward Coordinated EO Capacity Building

CALMet XV 2023

Presented by the EOTEC DevNet Secretariat

Erin Martin, Martyna Stelmaszczuk-Górska and Yasha Moz

November 2023

The Earth Observation Training, Education, and Capacity Development Network at a glance

- Network of networks
- Launched in March 2021
- Aims:
 - *Improve collaboration among EO-capacity building providers*
 - *Foster exchange of capacity building resources*
 - *Reduce duplication of effort*
- Thematic focus:
 - *Disaster risk reduction*
 - *Climate adaptation and mitigation*

Founding partners and leadership team

Global case on flood extent tools

Flood Tools

Name contains: [input field]

Disaster risk response stage: [dropdown menu]

Geographic domain: [dropdown menu]

Region: [dropdown menu]

License type: [dropdown menu]

Status: [dropdown menu]

Please browse the Flood Tools in our database by sorting through the list below. You can narrow down the selection of relevant tools either by using filters on the left side of the screen or by selecting a country of interest on the map below. Please click on the "Filter" button to see the updated list or click "Clear" to get back to the full list again. If you are aware of the flood tool that is currently not in our database, please submit it by filling the form [HERE](#).

Name A-Z	Disaster risk response stage	Category A-Z	Geographic domain	Region	License type A-Z	Status A-Z
Coastmap LMI, Rapid Mapping Activities	Response	Flood Extent Mapping	Local, Regional	Global	Open Source	Operational
European Flood Awareness System (EFAS)	Forecasting, Response, Risk	Hybrid Tools	Regional	Europe	—	Operational
FInFAR	Risk	Flood Modeling	Regional	Africa	Open Source	Operational
FloodHub 24/7 Real-Time Floods Monitoring service	Forecasting, Risk	Flood Extent Mapping	Local	Europe	Proprietary with free and open access to all the relevant stakeholders.	Operational
Flood Inundation Damage Assessment System	Response, Risk	Hybrid Tools	Global, Regional	Asia/Oceania	—	Operational
FloodScan	Response, Risk	Flood Extent Mapping	Regional	Africa, Americas	Proprietary	Operational

Sharing knowledge and information

Extending the reach of regional and global capacity building

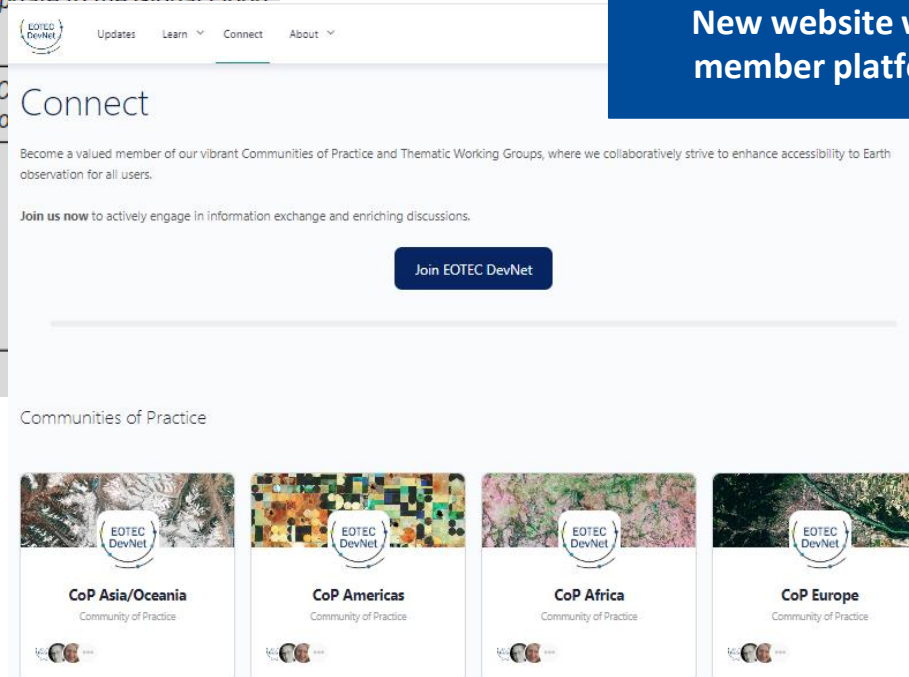

Today's agenda

Time (UTC)	Agenda item
13:00	Welcome
13:05	Introductions
13:10	EOTEC Flood Working Group "Year in review"
13:15	Spotlight presentation - <i>An overview of the major update to the Global Flood Awareness System (GloFAS) (version 4.0)</i>
13:40	Discussion: <i>The Early Warnings 4 All Initiative: Are C EOTEC DevNet support with knowledge sharing, info</i>
13:55	Secretariat updates <ul style="list-style-type: none">• Website launch• Flood use case update• Drought working groups launch• Copernicus webinar Nov 15• EO needs assessment guidance
14:05	Upcoming opportunities

Quarterly CoP task team
and working group
meetings for all four
regions

New website with
member platform

Online webinars and
spotlights

**Meet the New Copernicus Data Space
Ecosystem!**

Webinar: Nov. 15 at 14:00 UTC

Guidance and tools to make Earth information more accessible

Flood tools tracker: new iteration planned for 2024

Goal: Help users find the most relevant flood tools and related capacity building resources to prepare for, mitigate, and manage responses to flood events

Content: The tracker's searchable database currently contains 30+ flood tools and similar number of capacity building resources

Key Functionality: Tracker enables filtering flood tools based on the disaster risk response stage, tool category, geographic domain, operational status and other criteria

<https://eotec-dev.ceos.org>

Expanding technical coverage with new droughts working groups

Volunteers collaborating on a similar matrix for droughts

Keynote: Global Water Partnership's Integrated Drought Management Programme - recording on www.eotecdev.net

**INTEGRATED DROUGHT
MANAGEMENT PROGRAMME**

Who do you know who might be interested? Please share with your network!

First task: drought tools matrix

Please review and add resources

	Manning the Engagement of the				

- Matrix for tracking resources on EO needs assessment
- Plan to “crowd-source” content from the CoP
- Basis for a web-based tool, similar to the flood tools tracker.
