Last year we developed a new version of RTC Beijing certificate with a new logo, which is highly applauded by our participants worldwide.

Dr Valery Mikheev (RSHU/RTC Russia) (гость) (Guest)

2:17 PM

CONECT was initially designed to attract actors from outside NHMSs - PR nomination may not work for many

Dr Valery Mikheev (RSHU/RTC Russia) (гость) (Guest)

2:17 PM

If we want CONECT doors to be open wide, all 4 ways should be considered
Options identified so far are: Open. Anybod... by Unknown User

Steven Callaghan

2:18 PM

Options identified so far are:

1. Open. Anybody, as long as they work for a CONECT member institution, would contact the WG chair and begin working.
2. Self-nomination. Any member of a CONECT member institution can nominate themselves, with some form of resume or other description of their expertise and experience. The management group vet the candidate and accept or reject the offer.
3. Nominations by Permanent Representatives. As above, but through PRs.
4. Nominations by the Management Group. As above, but instigated by the MG, allowing us to target experts as needed.
