

WMO Capacity Development Panel

WMO Framework of Engagement for Member-to-Member (NMHSs) Support

Moyenda Chaponda

Head, Resource Mobilization and Development Partnerships

Ana Laura Zuanazzi

Associate Partner Coordination Officer

24th, September 2025

Member-to-Member support

Context

How do member NMHSs get involved in WMO activities and projects funded by Voluntary Contributions?

What's the process? Is there a mechanism in place?

WMO SG has called for increased peer-to-peer collaboration / twinning arrangements

Strengthen South-South and triangular cooperation

Resource Mobilization Strategy: Encourage members to participate in WMO projects to improve design, implementation and sustainability

RMDP was tasked to explore options for more systematic engagement of Member NMHSs in WMO projects/programs

Member to Member support

Current situation

Member-to-Member support is effective
but **inconsistently applied across regions**

Lack of structured process limits broader
NMHS participation

**Need for greater transparency and
diversity in collaboration**

Need for stronger coordination

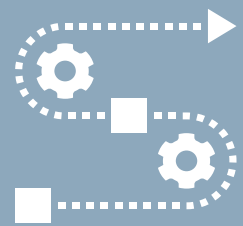

Low
opportunities
for South-South
collaboration

Low
diversity of
Partners

Regional
unbalance

Most NMHSs partnering with WMO are
advanced services

WMO Framework of Engagement for Member to Member (NMHSs) Support

Systematize and Strengthen Engagement

Promote Member-to-Member Cooperation

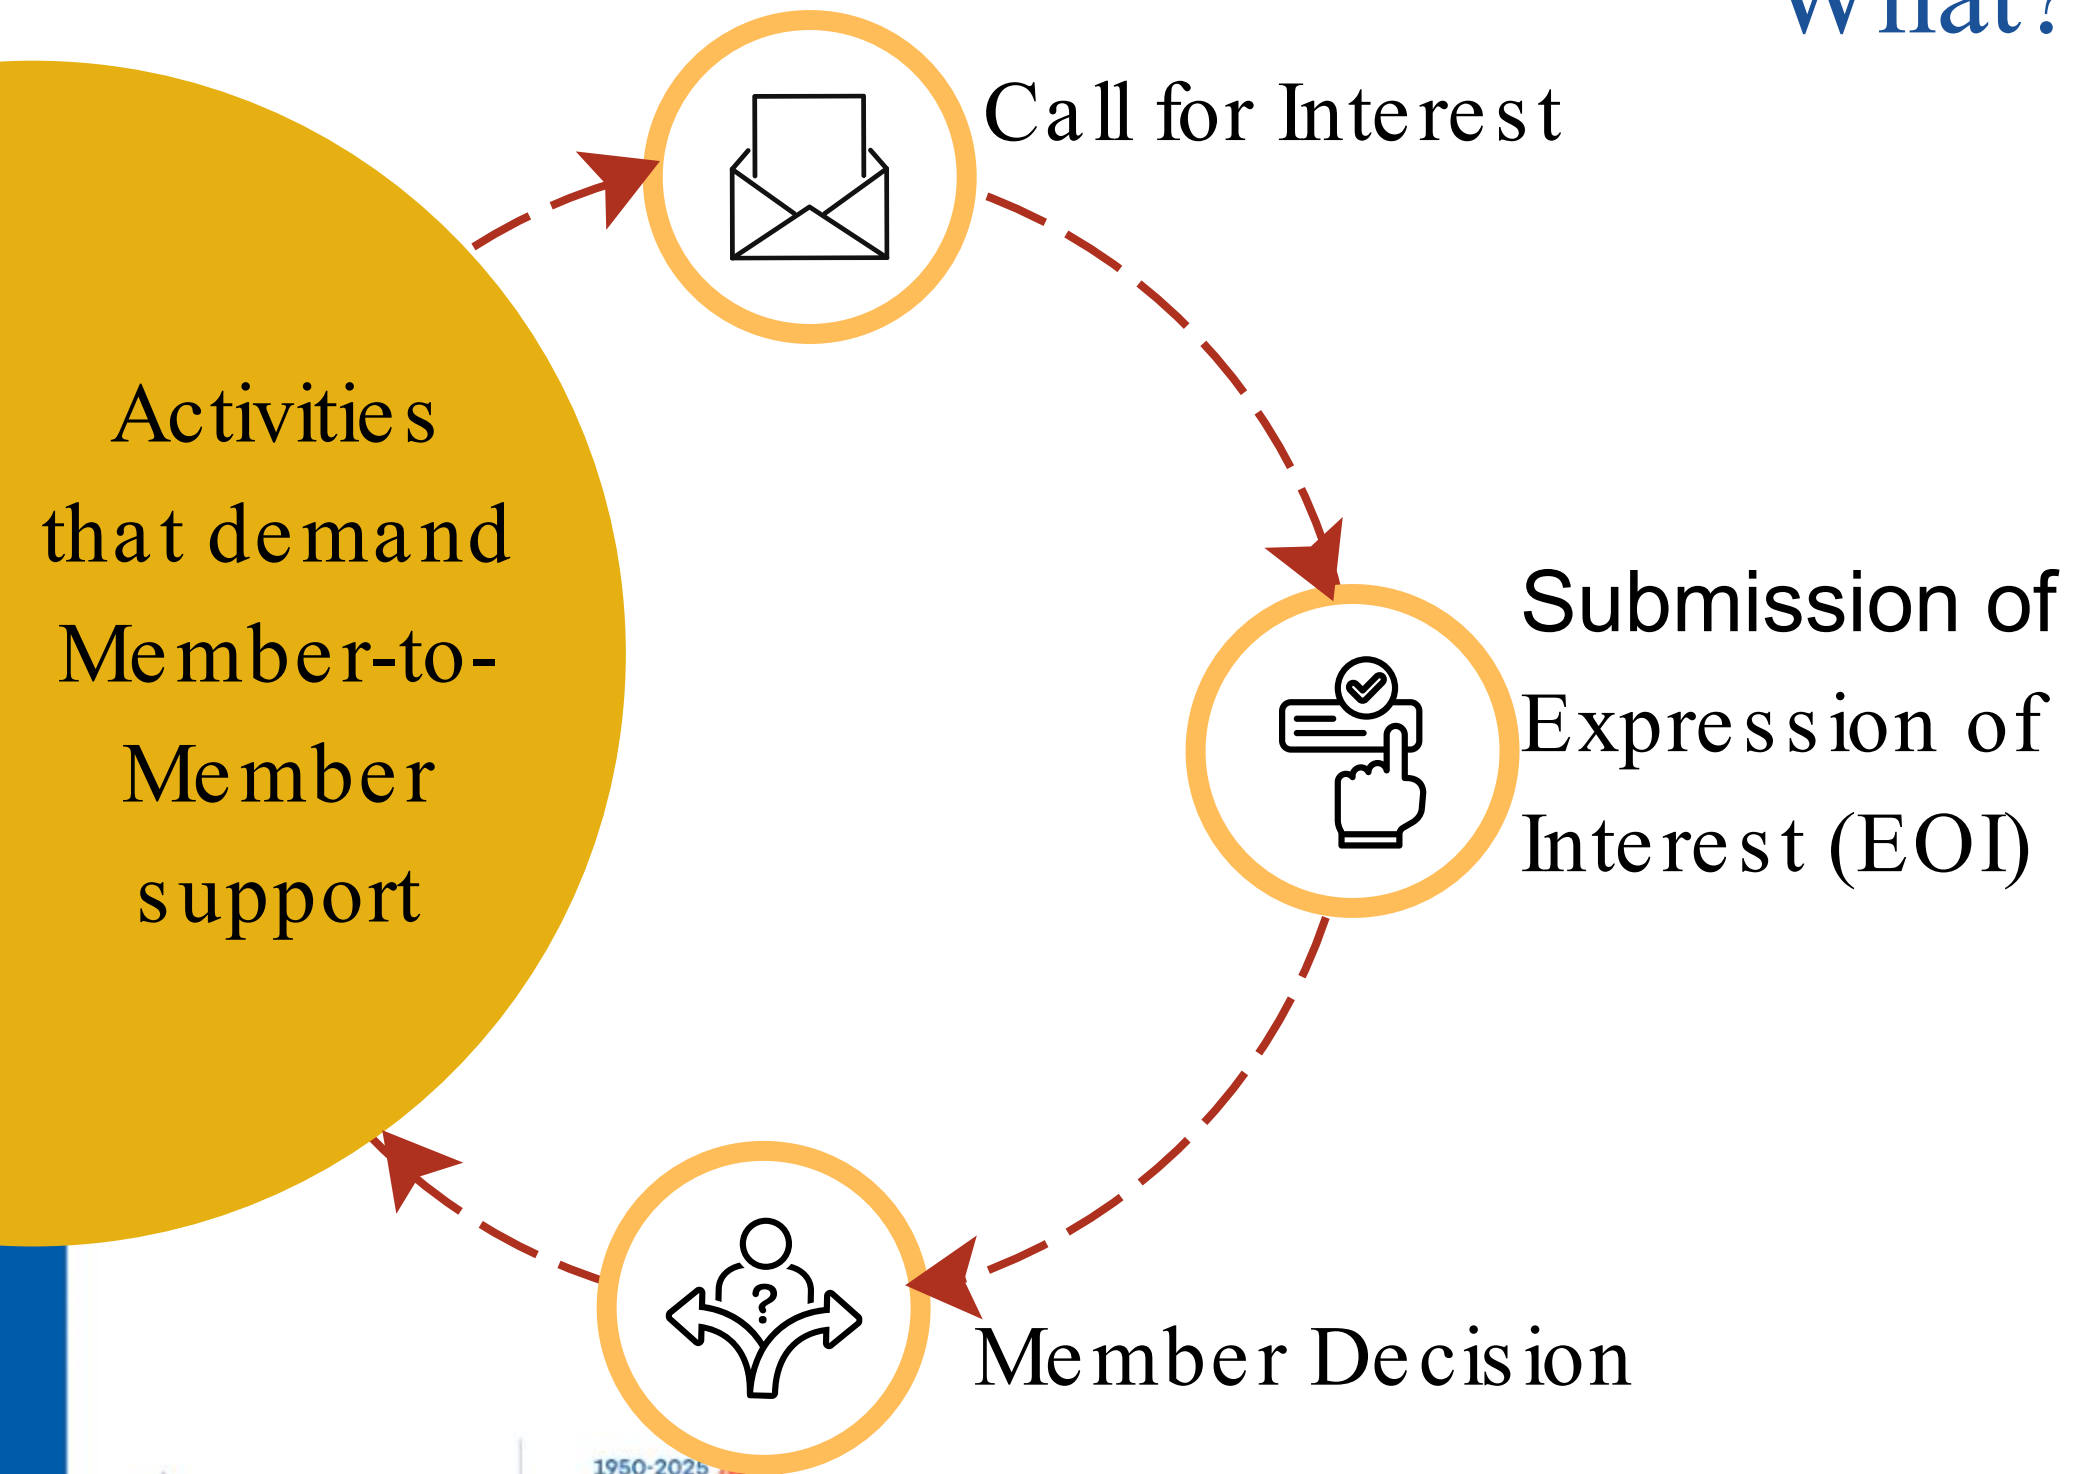

Institutionalize and Sustain Contributions

A structured process
for NMHSs to
collaborate under
Voluntary
Contributions

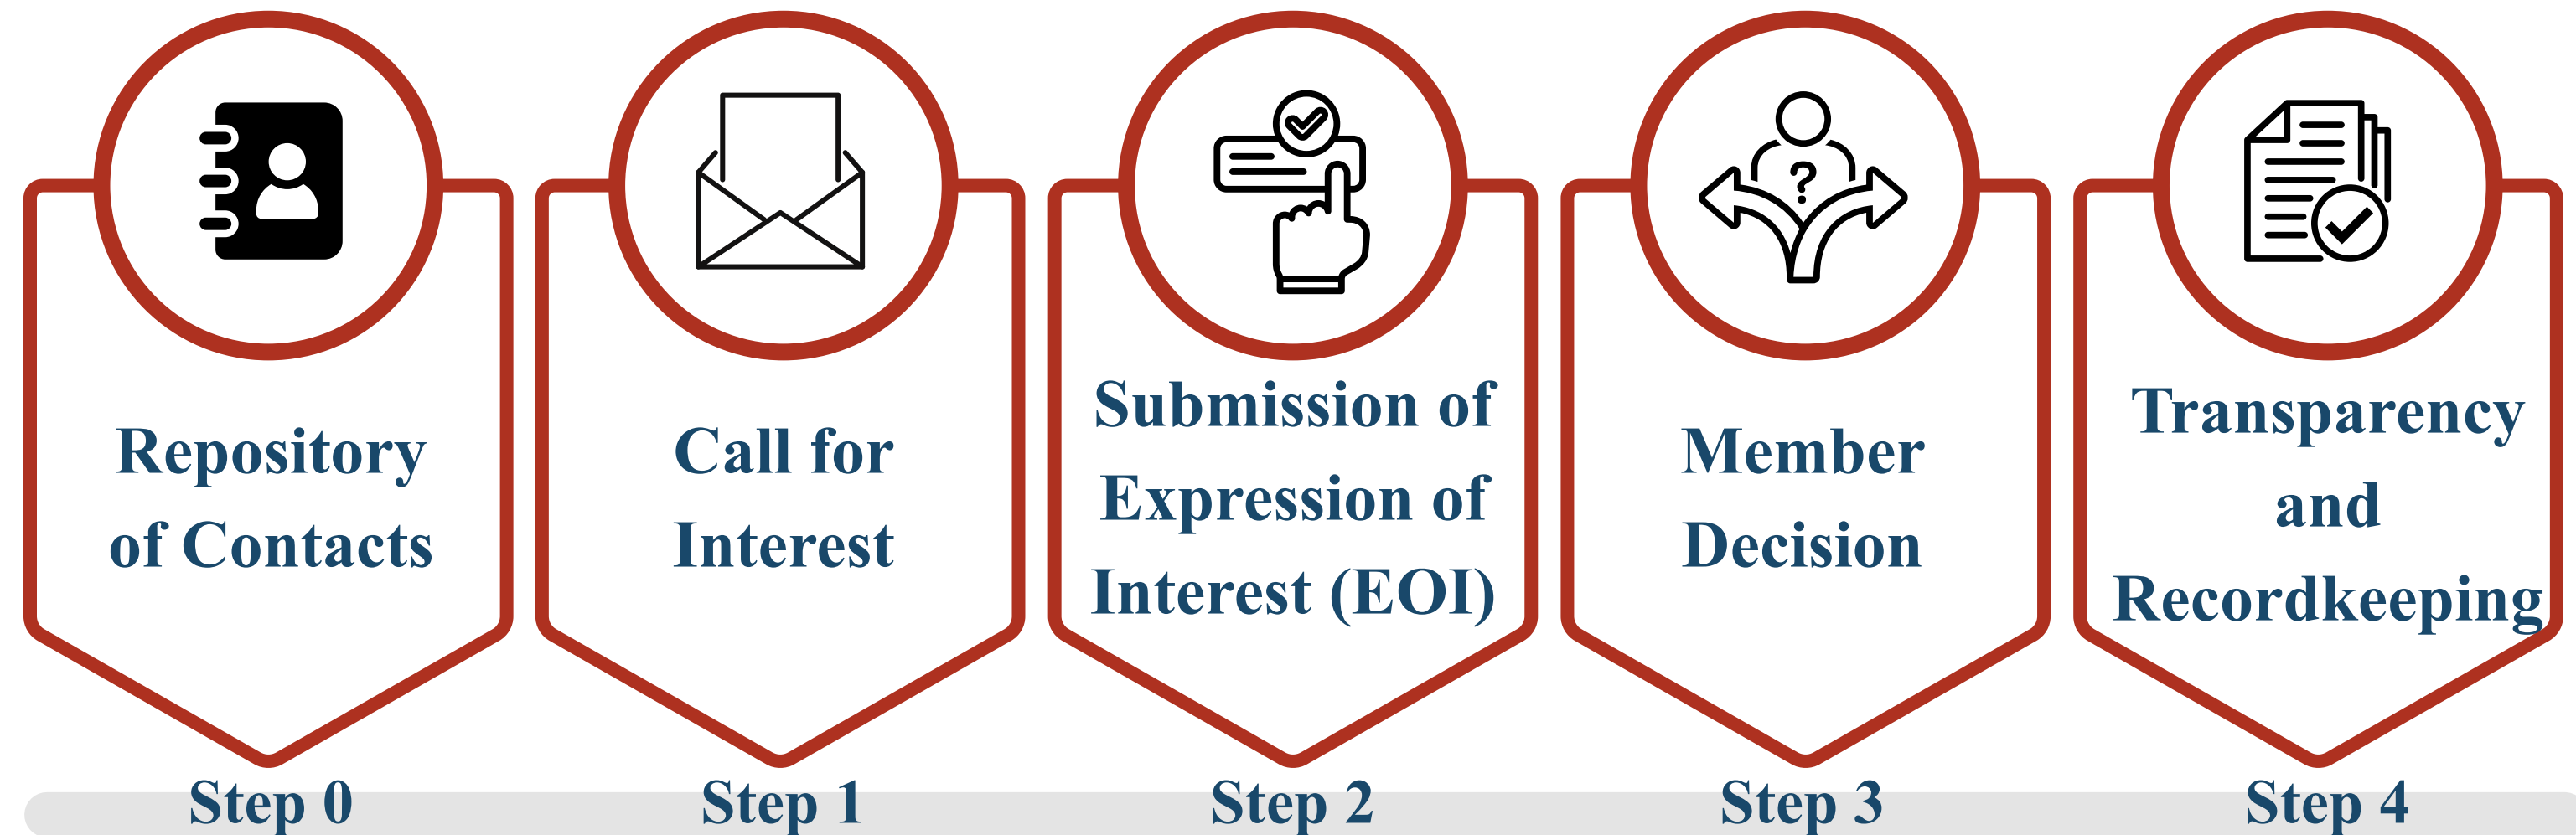

WMO Framework of Engagement for Member-to-Member (NMHSs) Support

What?

A formal process to ensure all Members have the opportunity to engage in WMO activities

WMO Framework of Engagement for Member to Member (NMHSs) Support

Members nominate Focal Points. List managed by DPO

DPO issues a call using the Invitation Template

Interested NMHSs submit detailed EOIs using the Application Template

Beneficiary NMHS selects a support provider, with justification

All decisions and documents are available to ensure fairness and accountability

WMO Framework of Engagement for Member-to-Member (NMHSs) Support

Consultation Insights

1st draft

Consultations

Final
Version

Pilot for
implementation

Concerns raised

- 1) NMHSs are not fully aware of their capacity to engage in Member-to-Member support.
- 2) NMHSs need guidance to project themselves as partners.

WMO Framework of Engagement for Member-to-Member (NMHSs) Support

What We Ask from the Panel

How to support less-experienced NMHSs?

How to ensure regional inclusivity in engagement?

Goal: Effective, sustainable rollout of the Framework

Thank you!
